Comment. The tabulation furnishes a complete survey of all B" and Bww installations. The Bws perform first-echelon maintenance, including light running repairs, on the locomotives assigned to them. The same type of work is performed on cars by the Bows. Bos and Bows are assigned to a regional railroad headquarters, and a railroad office, respectively. The Reichsbahnausbesserungswerke (RAW) (railroad repair shops) are equipped for all echelons of repair work and are assigned directly to the Directorate Coneral. Railroads. A tabulation of RAWs was transmitted previous-25X1 ly.
